ORGANISED BY

Safe Driving is
No Accident

For the January to September 2022, **402,626** total number of road accidents were recorded nationwide with **4,378** fatalities.

(Polis Diraja Malaysia (PDRM), 2022)

INTRODUCTION

This course is specially designed to not only equip your valued personnel with critical road-and-wheel knowledge, but with sustainable self-discipline habits, practices and practical on-the-wheel skills. This will help them in carrying out their respective duties by greatly minimising off-road negligence and maximising on-road cognizance.

The Hearts & Minds Training Methodology is deeply incorporated into all our various trainings and awareness talks especially through our Defensive Driving Training as we strive to influence the mindset, behavior and attitude of vehicle users to be safer on the road through developing defensive driving habits. Our core defensive driving concept, the 6-system driving technique is inspired by the internationally known, Smith-System.

LED BY EXPERT TRAINERS & FACILITATORS!

Our lead trainer, Mr Sivaneswaran and facilitators are accredited road safety trainers. He has over 11 years experience working with individuals, companies and governments alike in 7 countries benefiting nearly 7000 drivers with over 550 defensive driving training sessions. Working through MRS, participants will now find this a great eye-opening skill training with consistently superb testimonials.

OBJECTIVES

- To enable drivers to drive defensively using specific techniques (on-road, off-road)
- To achieve crash-free driving by identifying driving error
- To improve driving mind sets and behaviours

WHO WOULD GREATLY BENEFIT?

Companies with a fleet of vehicles should equip their designated employee-drivers with the right driving habits, attitudes, systems and techniques while on the job.

Both young as well as seasoned drivers will find this training a great eye-opener!

An Individual Driver's Competency Card will be issued to **recognise competent drivers** & serve as a reminder to apply skills acquired from the training.

*This competency card is renewable upon demonstration of the requisite skills on an annual or bi-annual basis.

ROAD SAFETY is a state of mind,
ACCIDENT is an absence of mind
